

Report on Programme “ India Post : Bring Govt. at your Doorstep”

Government Degree College, Chail-Koti, District Shimla, Himachal Pradesh, organized the programme “Government at Your Doorstep” on 20 August 2024 at the college campus. The programme was conducted with the objective of creating awareness among students and local residents about various government welfare schemes and services, and to provide direct access to government departments at the grassroots level. Officials from different government departments participated and disseminated information related to education, health, social welfare, employment, pensions, agriculture, and rural development.

The programme witnessed active participation from students, faculty members, and local community members, who interacted directly with the officials and sought guidance on eligibility, application procedures, and benefits of different schemes. The initiative successfully strengthened the connection between the government and the public, enhanced awareness about governance among students, and ensured effective service outreach in the rural area. The programme was impactful and fulfilled its objectives, highlighting the importance of such initiatives in promoting transparency, accessibility, and good governance.
